HAIGE SUCCULENTS Company Profile

Succulent wholesale and sourcing from Yunnan China

Who we are

HAIGE SUCCULENTS operates its own succulent growing base in Yunnan, China, and brings together supply from partner nurseries across the region. We serve wholesalers and live sellers worldwide seeking a sourcing contact in Yunnan.

Our sourcing model

Our own growing base and our partner nursery network form the foundation of our business. Product selection, batch condition, quantities and commercial terms are confirmed for each enquiry rather than presented as a fixed stock commitment.

For wholesale and live selling

Tell us the varieties, sizes, grades and quantities you need, together with your destination and preferred purchasing schedule. These details help us prepare a relevant selection and a quotation for your review.

Enquiry and order confirmation

Request the current product list and batch photographs or videos. Confirm the selected plants, available quantities, price currency, packing, dispatch schedule and payment terms in writing before placing an order. Shipping arrangements, documentation responsibilities and any related charges must also be agreed for each shipment.
